

Statement of Quality Assurance

Weeks & Leo Co., Inc. of Des Moines, IA has been providing private label over-the-counter (OTC) drugs to pharmacies and health care providers for over 70 years. These products are manufactured to **Weeks & Leo's** highest standards using current Good Manufacturing Practices (cGMP) as regulated by the FDA (Food and Drug Administration). All products are analyzed in the industry's finest laboratories conforming to the exacting criteria of the United States Pharmacopeia/National Formulary (USP/NF).

Weeks & Leo Co., Inc. has also been supplying a wide variety of private label dietary supplements for more than 50 years. The dietary supplements are repackaged in our facility using the same procedures as for OTC drugs. Our products have the finest quality ingredients approved for food use and are formulated to provide a minimum of 100% potency of each dietary ingredient.

Weeks & Leo Co., Inc. has a long (over 100 years) history of manufacturing personal care products. Each batch is meticulously produced using superior ingredients and is tested in our laboratory to ensure quality is not compromised.

Weeks & Leo Co., Inc. is resolute in its philosophy that no product will be distributed to our customers and/or end consumers until it passes our stringent quality inspections.

Customer Voice:

"We have been carrying Weeks & Leo products for 20 years. Their extensive product line allows us to recommend a high quality, lower priced alternative to brand name items in a variety of healthcare products. The private label feature gives us one of our most effective advertising options. While offering our customers products that we have confidence in is important, the attractive product margins have impacted our bottom line very favorably. Confidence, Quality and Profitability make us a very satisfied Weeks & Leo customer."
